Units taken as intensives have the same EFTSL as units undertaken in normal 14 week semesters.
 Units undertaken as intensives are charged at the same rate as those undertaken in normal 14 week semesters.

Teaching Periods

The term **teaching period** replaces the term semester given that teaching periods are of different lengths and there are more than the standard 2 previously used with SRS.

Intensive Teaching Periods are for units in *on-campus* mode and normally are of 3 weeks duration. All the requirements of the course can be undertaken in the three week period but students may only take one intensive at a time. An overview of the intensive teaching period might look like the following:
