# AVONDALE UNIVERSITY

Strategy 2022-2024

# Overview

Avondale's strategic planning for 2022-2024 has been based on the Strategy House approach. As part of this process, Purpose, Way and Impact statements were formulated, followed by the identification of the 'arenas' that will be the focus over the next three years. A detailed analysis of each arena subsequently resulted in strategy statements and the selection of key deliverables.

It needs to be noted that these strategies and key deliverables do not attempt to capture everything the organisation will work on over the next three years, but provides focus and clarity on key directions requiring resources and energy. An operational plan will be constructed for each strategy.
