

What is a Unique Student Identifier (USI)?

The USI is a unique identifier consisting of ten numbers and letters obtained from the government website www.usi.gov.au. It creates a secure online record of your recognised training and qualifications gained in Australia, from all training providers from whom you undertake recognised training. It gives you access to your training records and transcripts and can be accessed online, anytime and anywhere, is free and easy to create and stays with you for life.

Avondale requires a USI if you are to undertake any Vocational Education and Training (VET) course. Any USI's submitted have to be verified against a government database for matching purposes.

How do I obtain my Unique Student Identifier (USI)?

Step 1: Obtain a USI Government Website

Go to the Australian Government USI website www.usi.gov.au for further information. If you do not have a USI go to this website and follow the steps to 'Create a USI'.

You will require certain forms of ID in order to obtain a USI. Instructions are on this website.

	Important: When creating a USI it is important for verification purposes that the name you use on your identification and the name you use for your enrolment match. If the names used for your USI are not the same as what has been provided to Avondale your USI will not verify.

	Note: If you are an International Student studying offshore (including New Zealand citizens) and have never entered Australia you do not need a USI. If you fall into this category please contact Connect Support phone: +61 02 4980 2246 or email: student.connect@avondale.edu.au for assistance.
