

## How do I find the most recently published items?

Your search results automatically default to being sorted by *Relevance*. This means that the items that contain most of your search terms will be displayed first.

You can change this to sort by Author, Title, Date-newest or Date-oldest by clicking on the drop-down menu next to Sort by.

The most recently published items will now be displayed first. You can further filter on the left-hand side of the screen.
